LightJockey 2 is a flexible, easy-to-use Windows-based controller package that includes a USB-to-DMX interface box. One of the industry's most popular PC-based controllers for well over a decade, LightJockey 2 offers lighting designers greater flexibility, spontaneity and ease of use in a user-focused control package.

▪ Windows 7- and 8-compatible lighting controller software
▪ Large fixture library and user configurable editor
▪ Martin Show Designer 6 Lite 180-day trial 3D Visualizer
▪ Supports MP3, audio CD, SMPTE and MIDI timecode
▪ Martin USB Duo DMX interface with 2 x 512 Channels DMXIN/Out
▪ Control of up to 100 fixtures, 2048 DMX channels
▪ Graphical representation of all fixture functions
▪ Add-on LightJockey Manager, free downloadable software for scheduling events
▪ LED-Trix plug-in included for programming color-mixing fixtures

Physical	Shipping Length: 275 mm (10.8 in.)
	Shipping Width: 75 mm (3.0 in.)
	Shipping Height: 325 mm (12.8 in.)
	Shipping Weight: 1.4 kg (3.1 lbs.)

Control and Programming	Trig sources: Manual, auto, audio input with FFT analyzer, DMX in, MIDI, Light Jockey Manager
	Cue list time code synchronization (CLTCS) options
	Internal timer, including 24-hour clock
	Audio CD time code from CD-ROM drive
	Digital Audio (MP3, WAV, etc.) time code using Winamp ™
	MIDI Time code, SMPTE with suitable SMPTE/MTC interface

Programming	Number of fixtures: Up to 100, or 680 RGB fixtures
	Fixture library: All Martin (DMX) fixtures, user-definable profiles for non-Martin fixtures, generic DMX profiles
	Control: Graphical control of all fixture parameters
	Visualization: Real-time realistic 3D Visualizer MSD MC Edition for off-site programming (45-day trial version)
	Macros: Pan and tilt, relative or absolute movement, shape generator with different shapes and delay styles
	LightJockey Manager trigger options

Playback	Cue contains 12 sequences with global or individual fade time adjustment
	Master intensity control + 8 configurable intensity groups
	Manual override with direct access to all functions
	Independent background cue with 5 parallel sequences
	Blackout and fade out function
	Go button for manual cue lists
	Assignable keyboard hotkeys for faster access
	Smoke control independent from programming
	Follow spot function
	Cue list for synchronization with timer, digital audio or Audio CD-ROM timecode
	Audio analyzer for trigging sequences by audio
	Function and DMX channel override via DMX IN (depending on interface type)

System Requirements
1 GB RAM
Intel Core i3 or equivalent
Monitor resolution of 1024x768
USB 2.0 port for DMX interface hardware
500 MB drive space available
Windows 7 or 8

Included Items
(included with LightJockey 2 ™ Kit, P/N 90207020)
Martin One-Key ™ with 4 universes LightJockey 2 ™ license
Martin ShowDesigner 6 ™ Lite 3D Visualizer 180-day trial
Martin USB Duo ™ USB/DMX Interface Box
USB cable
Latest software is available for download at www.martin.com
